Web Site:

By subscribing to our mailing list or using the website you will be deemed to have accepted these terms in full. Secret Forex Brokers, the website, mailing-list, and its representatives do not and can not give investment advice or invite customers to engage in investments through this website. ### Market Risks and Online Trading:

Trading on-line, no matter how convenient or efficient does not necessarily reduce risks associated with currency trading. All quotes and trades are subject to the terms and conditions of the Client Agreement accessible through the Broker you select.

----High Risk Investment:

Trading foreign exchange on margin carries a high level of risk, and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. Before deciding to trade foreign exchange you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a loss of some or all of your initial investment and therefore you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with foreign exchange trading, and seek advice from an independent financial advisor if you have any doubts.

### Market Opinions of Our Staff :

Opinions expressed by our company's representatives regarding the prices of specific currencies and the direction they will take in the future do not necessarily represent the opinion of Secret Forex Brokers, and are not guaranteed in any way. In no event shall Secret Forex Brokers be held liable for losses incurred in connection with any decision made by any party based on information provided verbally or via the internet by our staff, or any delays, inaccuracies, errors, or omissions in such information. Although every attempt has been made to assure accuracy, we do not give any express or implied warranty as to its accuracy. We do not accept any liability for error or omission. Examples are provided for illustrative purposes only and should not be construed as investment advice or strategy.

### Testimonial Disclosure:

Unique experiences and past performances do not guarantee future results! Testimonials herein are unsolicited, uncompensated and are non-representative of all clients; certain accounts may have worse performance than that indicated. In some testimonials due to language barriers or improper sentence structure, we added, changed or rearranged a few words to improve coherence, but did not alter the intended message. Please remember that trading stocks, options and spot currencies involves substantial risk and there is always the potential for loss. Your trading results may vary. Because the risk factor is high in foreign exchange market trading, only genuine "risk" funds should be

used in such trading. If you do not have the extra capital that you can afford to lose, you should not trade in the foreign exchange market. No "safe" trading system has ever been devised, and no one can guarantee profits or freedom from loss.
